

Winter School 2019-Modelling the Climate System

	Monday June 24	Tuesday June 25	Wednesday June 26	Thursday June 27	Friday June 28
8.15 - 8.45	Registration				
8:45 - 9:00	Introduction and Welcome Melissa Hart				
9:00 - 10:00	L1 -Philosophy of climate modelling Gab Abramowitz	L4 - Fundamentals of modelling the land surface Anna Ukkola	L7 - Earth system modelling Katrin Meissner	L10 - CMIP Julie Arblaster	L13 - Subseasona to seasonal prediction of the ocean/atmosphere system Matt Wheeler
10:00 - 11:00	L2 - Fundamentals of atmospheric modelling Todd Lane	L5 - Fundamentals of ocean modelling Paul Spence	L8 - Paleoclimate modelling Jo Brown	L11 - Model evaluation Christian Jakob	L14 - Data assimilation Craig Bishop
11:00 - 11:30	Morning Tea				L13 - YESS community Nina Ridder
11:30 - 12:30	L3 - Fundamentals of atmospheric modelling Todd Lane	L6 - ACCESS-OM2 Andy Hogg	L9 - ACCESS Rachel Law	L12 - Computing for climate modelling Scott Wales	Lunch
12:30 - 13:30	Lunch				Researcher Development workshop -Combined with NESP Building your profile Alvin Stone, Linden Ashcroft, Sonia Bluhm, James Goldie, David Holmes
13:30 - 14:30	Mk3L- experimental design and model set up	Ocean lab	Mk3L- model output analyses	Mk3L- presentation and discussion of results	
14:30 - 15:30	Afternoon Tea				
15:30 - 16:00	Afternoon Tea				
16:00 - 17:00	Mk3L- experimental design and model set up	Ocean lab	Mk3L- model output analyses	Mk3L- presentation and discussion of results	The end
Evening	Icebreaker	On your own	On your own	AMOS trivia
